

Year 1 Long Term Overview

Layers of planning

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12
Term 1	Number and place value			Addition and subtraction			Shape	Number and Place Value		Addition and subtraction		
	Number bonds for 10/20. Mental calculations											
	Number, Pattern and Calculating Ruth Atkinson											
	Counting in 2s,5s,10s											
	Position and direction / problem solving											
Term 2	Time		Place Value		Addition and subtraction	Measures Height & Length	Multiplication and Division		Fractions		2d & 3d shapes	
	Number bonds for 10/20. Mental calculations											
	Number, Pattern and Calculating Ruth Atkinson											
	Counting in 2s,5s,10s											
	Position and direction / problem solving											
Term 3	Number and Place Value			Number : Four operations			Money		Weight and Volume		2d & 3d shapes	
	Number bonds for 10/20. Mental calculations											
	Number, Pattern and Calculating Ruth Atkinson											
	Counting in 2s,5s,10s											
	Position and direction /problem solving											

Learning objectives you are going to teach

Through daily routines and activities

Introduce and revisit. Learning gradually and cyclically counting houses, maths missions

Learning through other subjects
